

We are looking for a Product Specialist in Singapore

Do you have hands-on experience with LC-MS instrumentation for proteomics and excellent people and communication skills? Then you might be the one we are looking for as our new Product Specialist based out of Singapore. We are experiencing increasing demand in The Asia-Pacific region, and we need you to assist our customers and service partners with service and application support as well as provide internal sales support.

Who are we?

Evosep is only five years old as a company, but most of our employees have a long history within the nanoLC and proteomics field. Our expertise within the field made it possible for us to bring the Evosep One to market at HUPO 2017 in Dublin just one and a half years after Evosep was founded. Our mission at Evosep is to improve quality of life and patient care by radically innovating how protein based clinical diagnostics are performed. To do so, we engage in collaborations with world-leading scientists about developing new technologies and solutions to make sample separation 10 times faster and 100 times more robust than today's alternatives.

Responsibilities

- Support Evosep One users as a domain expert in LC-MS and proteomics.
- Plan and provide user training.
- Plan and provide installation, preventive maintenance and repair.
- Provide technical support from home-based office.
- Create support related documentation.
- Support our sales team with product expertise and scientific presentations.

Qualifications

- B.Sc., M.Sc., or Ph.D. in Analytical Sciences, Biochemistry or related fields.
- 3+ years of hands-on experience with LC-MS instrumentation for proteomics.
- Commercial experience will be considered a plus.
- Excellent communication and "people" skills are essential. This goes for both writing and presenting skills, as well as listening and interaction skills in general.
- Fluent in English, Mandarin is considered a plus.
- Moderate to frequent travel will be required within APAC, as well as occasional global trips.
- When not traveling, you must be able and motivated to work from home – preferably based out of Singapore.

What we offer

- A team of passionate colleagues who are all working for our mission. You will contribute to solutions for improving quality of life and patient care and be a part of an innovative and dynamic culture in an ever-evolving industry.

- An opportunity to be part of a growing company and the possibility to be influential and shape your own role.
 - A work environment where freedom under responsibility is key. We expect you to be dedicated and deliver and in return you will have flexibility to schedule your work in a way that best compliments your work-life balance.
 - An encouraging and informal tone, both internally and when working with our users. You can go a long way with constructive communication.
 - A small company with a global reach. You will have several colleagues working abroad and we prioritize a strong communication with our team across the world.
- Does this position sound like a match? Then do not hesitate to send us an application at jobs@evosep.com.
 - For more information or questions please contact Head of Support, Ole Tang Sørensen at ots@evosep.com or phone +45 26 33 23 31. The right candidate is expected to start as soon as possible.

What happens after I send my application?

We are looking for someone who can join our team as soon as possible. We will conduct interviews continuously and we reserve the right to close the job advert as soon as the position has been filled, so do not hesitate to send us an application. It is important to us that we respond to all candidates who has spent time sending us an application. You will therefore at a minimum receive an email regarding your application. We are looking forward to hearing from you. Visit our [career site](#) and learn more about working at Evosep.
