

EVUSEP POD

Excellence just got easier

Evosep™ Pod™ are simple, standardized column ovens that connect your Evosep Eno system to compatible mass spectrometers.

✓ Seamless Integration

Evosep Pod is designed to work perfectly with Evosep Eno standard methods and Evosep Performance columns on your preferred MS interface.

✓ Plug'n Play Simplicity

Evosep Pod is a standardized and easy to use one piece solution. Simply insert your column, close the Pod and start your analysis.
